

TechEd 2008 North America DVD

Silverlight version compatibility issue

Microsoft has released the final version Silverlight 2 which is not compatible with the beta version that the TechEd North America DVD user interface was built on. Please see the instructions below for accessing the content online or on the DVD.

Online Access (**now upgraded to Silverlight 2**)

You can access the full DVD experience online using the released version of Silverlight 2 by going to www.msteched.com and using your registration credentials to log-in. To install Silverlight 2 please go to <http://www.microsoft.com/silverlight/default.aspx>

DVD Work-around

To access the recorded sessions and PowerPoint files from your DVD set please take the following steps:

Contents

TechEd Developers: Disc 1-5

- Disc 1: Architecture, Business Intelligence, Infrastructure for Developers, Windows Mobile, Bill Gates Keynote, Unified Communications, Women in Technology Luncheon
- Disc 2: Database Platform, Development Practices, Dynamics
- Disc 3: Windows Embedded, Office and SharePoint, SOA and Business Processes
- Disc 4: Tools and Languages, Windows and Frameworks
- Disc 5: Web and User Experience

TechEd IT Professionals Disc 6-9

- Disc 6: Application Platform for Developers, Business Intelligence, Windows Client, Database Platform, Bob Muglia Keynote, Women in Technology Luncheon
- Disc 7: Dynamics, Windows Embedded, Identity and Access, Microsoft IT, SOA, Sponsor Sessions, Windows Server Infrastructure
- Disc 8: Windows Mobile, Management, Security, Specialized Servers
- Disc 9: Office and SharePoint, Unified Communications, Virtualization

Instructions

Step 1: From the start menu click on "Computer"

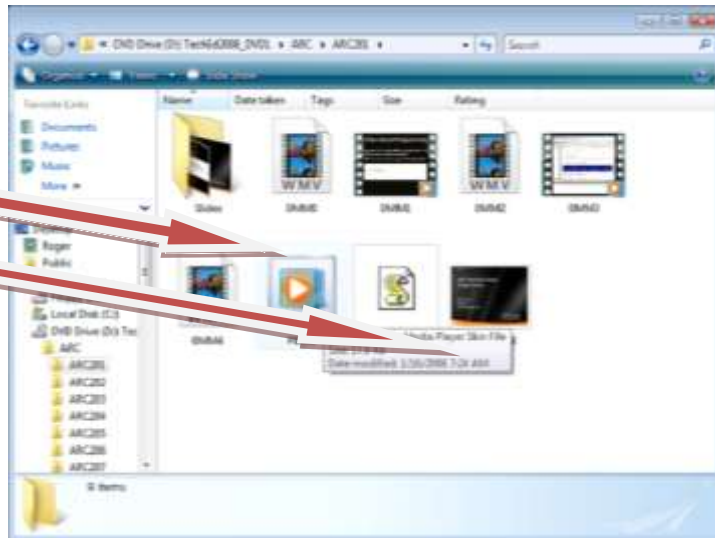

Step 2: Right click the DVD and select "Explore" from the option menu

Step 3: Select the session folder you wish to view based on the session code (see list below) and select either

- A) "Player" to view the session recording, or
- B) The PPTX folder to view the PowerPoint file
